

# Our digital cloakroom – no tickets required.

## *itemdrop* – the new generation of cloakroom

How it works: Participants' payment methods – whether bank card, smartphone, or smartwatch — simply become their digital cloakroom ticket. No cash, no paper, no chaos. The system automatically assigns an available storage space. When items are collected, staff can immediately see where the belonging is located. This creates a fast, transparent, and seamless process at the cloakroom, even during high visitor volumes. *itemdrop* creates a genuine win-win-win situation for participants, staff, and event organizers.

## The advantages at a glance

### For participants:

- No cloakroom tickets
- No cash
- No app required
- Intuitive use with their own bank card, smartphone, or smartwatch
- Faster drop-off and pick-up

## The perfect solution for everyone involved.
